RE: Discontinuation announcement for AC-Y415A 12VDC power adapter

Toshiba is no longer able to supply the AC-Y415A 12VDC power adapter due to discontinuation of key parts by the vendor for this item. We sincerely regret any inconvenience caused by the discontinuation of this accessory item.

Toshiba is qualifying a replacement power adapter which meets the latest U.S. Department of Energy efficiency requirements, EPS Level VI and is expected to be available in Q1, 2016. Confirmation of specifications, pricing and availability will be announced when these become available.

In the meantime there is limited availability of the current AC-Y415A adapters through Toshiba until the end of January, 2016.

Please contact Toshiba sales or your local supplier if you need to place an order or confirm availability.

Best regards
