# TOSHIBA MEDICAL

# **Xario** 200

Platinum Series

Smaller. Smarter. Simpler.

# Premium performance, small package

Today's healthcare environment is challenging. Xario™ 200 Platinum meets your clinical demands with versatility, flexible workflow and consistent, high-quality imaging performance at an affordable price.

# More clinical detail\* in less time

Only the best image quality allows you to make a diagnosis quickly and with confidence. Each of our unique imaging technologies provides you with excellent image quality by reducing noise, strengthening signal and improving visualization. Toshiba Medical's unique iStyle™+ Productivity Suite enables faster exams and greater productivity by reducing keystrokes, improving workflow and raising the consistency of exams.

From standard models to specialty probes – all of Xario's transducers deliver superb image quality in a wide range of clinical applications.

### High clarity, quality clinical results

Precision Imaging and ApliPure™+ deliver outstandingly smooth images with sharpened outline of lesions, enhanced image uniformity and reduced noise.

# Depth and detail on all patients

Exclusive Differential Tissue Harmonic Imaging (D-THI) provides images of high spatial resolution and contrast, alongside greatly increased penetration.

# Superior resolution and sensitivity

Advanced Dynamic Flow™ (ADF) elevates color Doppler imaging to a whole new level of spatial resolution to reveal minute vasculature.

## Seeing the unseen

Superb micro-vascular imaging (SMI) expands the range of visible blood flow to visualize low-velocity microvascular flow. Smart 3D allows you to acquire 3D volumes with a standard transducer.

# Versatility in every aspect

From abdominal imaging to obstetrics and women's health, from specialized cardiac studies to point of care application, from musculoskeletal to vascular exams – the new Xario 200 delivers outstanding clinical performance for routine and advanced studies in a wide range of clinical settings.

## Volume imaging suite

Luminance offers natural-looking 3D renderings of high quality and definition.

## Real-time elastography

Assists you in localizing and assessing palpable masses.

## color Superb Microvascular Imaging (cSMI)

Allows assessment of low velocity flow to provide detailed information on vascularity.

# Stress Echo

Fast and accurate cardiac assessment supporting standard and user-defined protocols for exercise studies.

### **Panoramic view**

Helps you visualize widespread areas and anatomical relationships by creating wide-view images of a region of interest.

### **Auto IMT**

An easy-to-use, automated tool to determine the thickness of the intima-media layers of the carotid walls.

# Superb detail, precise diagnostics

Each of Xario's unique imaging technologies provides you with high image quality and work hand in hand within imaging modes to enhance diagnostic confidence.

# Fully customizable console

Xario's console and mode-sensitive touch screen suit your clinical needs and personal preferences simply by allowing you to assign functions to the keys of your choice.

# Instant image optimization

QuickScan automatically optimises the image with a simple push of a button so you can achieve greater consistency in your exams in less time.

# Reduce keystrokes, shorten exam time

Xario's new Quick Start menu helps you adjust the imaging parameters, while ensuring a smooth, uninterrupted workflow.

# Ergonomics to suit your workplace

Every aspect of Xario 200 has been optimized to deliver excellent ergonomics for your workplace. The system lets you adjust both the console and screen into the perfect position for more convenient patient access, better viewing and help to protect you from neck, shoulder and eye strain.

### **Cable management**

Xario's smart cable management system helps you put an end to tangled wires, enabling you to move the system easily and safely.

#### **Transducer connectors**

Xario's slim probe connectors with large lock levers and active port indicator, simplify both workflow and transducer selection.

# Smart design

The system's 19 inch premium quality LCD screen with fully articulating arm and convenient monitor is easily moved into position.

# **Exporting your clinical data**

Xario ships standard with a DVD writer, as well as network and USB connections for study documentation, storage and data export.

### **Reporting options**

Xario provides comprehensive onboard facilities to generate and print customizable reports including measurements, charts, clinical images and text.

### Managing your study data

Xario's fully integrated patient and image management system allows you to review and manage your studies conveniently on the system.
