

FM

Floor Mounted Radiography System

High Quality Imaging Within Reach

In this challenging clinical environment, you simply can't afford to sacrifice quality for affordability. Now you don't have to choose. The FM Floor Mounted Radiography System features the premium, low dose imaging you expect from Canon Medical, all packed into an economical, compact and reliable system. With the ability to fit into tight spaces and within many budgets, it comes standard with system specifications you need to perform a wide range of exams on patients of all sizes — without compromise.

Leverage the Canon Medical Advantage

Enjoy unprecedented image quality. Benefit from over two decades of Canon Medical's expertise in digital detector technology, which offers high image resolution and high sensitivity with low dose potential.

Choose the right panels for your needs. Flexibility in detector configuration to fit within your budget and unique clinical environment.

Improve workflow. CXDI Control Software NE optimizes workflow with user configurable presets, interactive GUI for intuitive operation, and fast image-preview times.

Save space. Robust floor-mounted design fits into tight spaces without ceiling-support construction.

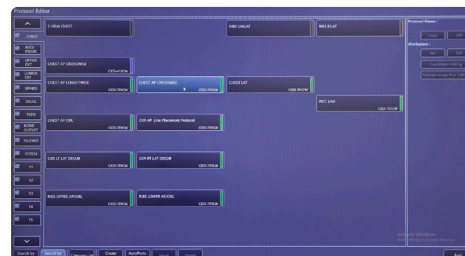

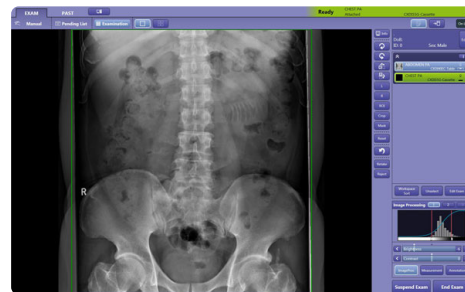

Increase patient safety. Counter-balanced tube stand offers smooth movement and low table height makes positioning and transfer easier.

Boost flexibility. Multiple generator and X-Ray tube options to fit your needs.

An Affordable System with Advanced Software Features

An array of features comes standard on our system:

- Advanced Edge Enhancement feature for improved visibility of catheters, fine structures and bone
- Free Image rotation enables the orientation of images to any angle
- ID card login for seamless, secure operator access
- Radiation Dose Structured Reporting
- Intuitive multi-touch display operation including zoom, pan, double-tap and list scrolling
- Windows 10 OS with cybersecurity features: Bit Locker and Device Guard

CXDI Control Software NE

Optimal Comfort and Versatility

The highly-adaptable FM simplifies your ability to accommodate imaging from head to toe, on patients of all sizes and degrees of mobility:

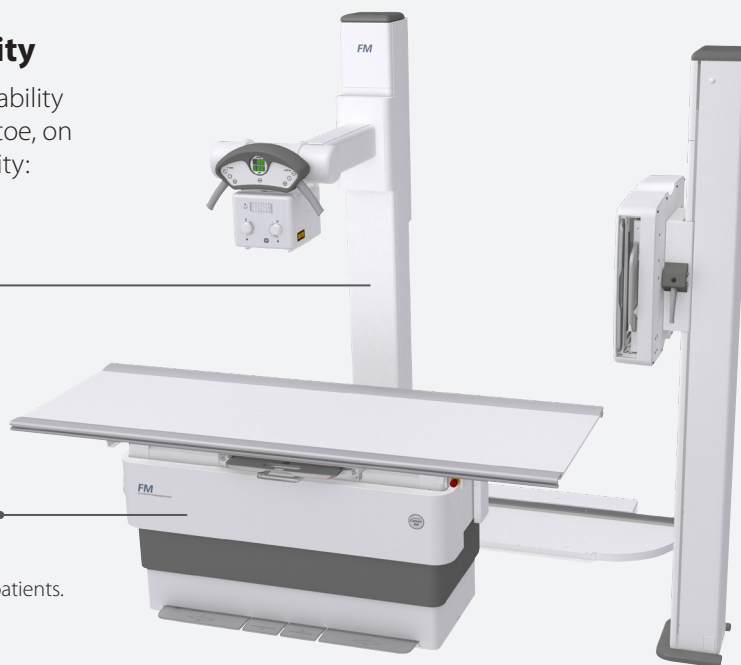

Freestanding Tube Stand

Enables you to image patients on the table or wall stand, and also accommodates stretcher and wheelchair exams.

High Table Weight Capacity

(up to 770 pounds)

Allows imaging for a wide range of patients.
